

REPTILE DISTANCE EDUCATION PROGRAM

The Evolution in Training for Pet Industry Professionals

PIJAC Canada welcomes you to discover the Reptile Distance Education Program, one of six distance education programs to be offered by the association. In an effort to enhance the delivery of the existing Certified Companion Animal Specialist Program, PIJAC Canada has altered the format to ensure unlimited accessibility to the program for all Canadian pet industry businesses. While continuing to focus on Reptile care and husbandry, this all-in-one course is available online via the PIJAC Canada website or on CD Rom in both French and English.

The Certified Companion Animal Specialist Program is the only voluntary certification program of its kind available to the Canadian pet industry. The course was developed by veterinarians and pet industry experts to train people who work with pets on a regular basis in the field of proper animal husbandry. The program contains 11 learning modules and one final exam. Participants who successfully complete the exam will earn a Certified Reptile Specialist Designation through PIJAC Canada.
